Burnett Clinical Group

For fertility clinics and physicians

Emotional support that runs alongside medical care.

Individual telehealth psychotherapy for your patients in California, from a licensed clinical social worker who sees every fertility client personally.

When to refer

Anxiety during treatment
Worry and rumination around monitoring, the two-week wait, and results.

Decision stress
Another round, donor options or surrogacy, or stopping treatment.

Grief after loss
Unsuccessful transfers, miscarriage, and the fear that follows trying again.

Strain on daily life
Effects on work, friendships, and the marriage, addressed in individual therapy.

At a glance

Who: Adult women, 18 and over, residing in California

Format: Individual psychotherapy by secure video, 50 minutes

Fee: $200 per session, private pay, superbill provided

First step: Appointment request or a short referral email

How referral works

1. Send. Email the patient's name, how to reach her, and the reason for referral. Share only what she has agreed to release.

2. We reach out. She hears from us by email to schedule an intake.

3. Care begins. Weekly sessions with Dr. Burnett by secure video.

4. Coordination. With her written consent, we coordinate with your team.

Add us to your patient resource list.

To be listed as a referral option, or to receive a one-page summary for your patient materials, email **drburnett@burnettclinicalgroup.com** with your clinic name and the best contact for resources. Details for referring clinics: **burnettclinicalgroup.com/for-fertility-clinics**
